

Access controls worksheet

	Note(s)	Issue(s)	Recommendation(s)
Authorization /authentication	• <i>An account with Legal/Administrator privileges originated the event.</i> • <i>Occurred at 8:29:57 AM on 10/03/2023</i> • <i>Used the device with IP 152.207.255.255</i>	• <i>The user (Robert Taylor Jr.) who originated the event has Admin privileges, even when his role is Legal attorney.</i> • <i>The user account shouldn't be activated because its end date was at 12/27/2019, years before the event occurred. His account accessed payroll systems in 2023.</i>	• <i>The organization should define policies to limit the user privileges per account/role.</i> • <i>Implement technical controls to block access to accounts past their end date, for example access to user accounts expire after 30 days.</i> • <i>Enable MFA.</i>
